U.S. HOSE & COUPLING

A team driven to provide quality hose solutions through ingenuity, passion and commitment.

**THE PATRIOT HOSE LINE** - We are proud of our country and have designed the Patriot hose line to mirror the resilience of this great nation. Part numbers of the Patriot line will coincide with pivotal dates in United States history. It is a privilege for us to be able to produce exceptional hose products that also honor the United States of America.

### PATRIOT EXTREME CHEMICAL

PART NUMBERS  
1776 & 1776C

**1776** represents the official beginning of the nation with the signing of the declaration of independence.

The hose features boast of being light weight, flexible, and food grade, while retaining the ability to handle most every common industrial chemical in use today. The tube of the **Extreme Chemical** is UHMWPE and non-staining. Temperature rating for this hose is -40 °F to +250 °F.

### PATRIOT ABSOLUTE PETROLEUM

PART NUMBER 1787

**1787** represents the official signing of the US Constitution.

The hose is a flexible, domestic made tank truck hose that is used to convey petroleum products and is perfect for oil field applications. **Absolute Petroleum** is compatible with Fuel Ethanol up to E85 and Biodiesel up to B20. This hose's temperature rating is -30 °F to +180 °F.
